WHITES FLEE BLACK INVASION!

Britain now has FIVE MILLION INVADERS!

INCREASING numbers of White people are abandoning Britain to the Black invaders. That is the shocking conclusion of two sets of figures which have recently been released by the Office of Population, Censuses and Surveys.

The first set of figures show that while the overall population of the United Kingdom has remained relatively static, the total number of Black Immigrants has shot up by over 32%.

This figure only includes first generation Immigrants and does not include the Blacks that were born in this country.

Increasingly Britain's Black population is expanding not so much because of continuing immigration, but as a result of their very high birth rate.

Over the 5-year period 1977-82 these births added over 250,000 to the Black population. In Inner London, Bradford, Leicester and Birmingham more than 25% of all births are now Black.

WHITES EMIGRATE

Multi-racialists claim that we should not worry about this massive increase in the Black population because it is more than matched by the numbers of people leaving Britain. In 1982 over a quarter of a million people emigrated.

But what they fail to point out is that the vast majority of the people leaving are well educated, professional and technical people and they are WHITE, while the Immigrant invaders are often illiterate, usually unskilled and they are predominantly BLACK.

This 'White flight' from our cities and from our country is being caused by the multi-racial nightmare that is steadily engulfing Britain.

Of the 257,000 people who left Britain last year the main destinations were Australia, New Zealand and Canada, while the number of Whites going to South Africa rose by over 50% to 27,000.

HAEMORRHAGE

In a television documentary two years ago a number of White people who had left Britain for these countries were asked why they had gone. Some of them mentioned better job opportunities, others spoke of ties with relatives.

But every single one mentioned race, and in many cases the *main reason* they gave for wanting to get away was Britain's racial disintegration.

If Britain is to have a future we must cease to be the dumping ground for the world's surplus Black populations and we must halt this suicidal haemorrhage of fleeing Whites.

CORNWALL TO COP IT

DO YOU think of Cornwall as a delightful place for a holiday, or perhaps even for retirement, to escape the squalor, violence and misery of life in a multi-racial Inner City?

Then book your holiday quickly – but don't move down there – because Cornwall is being proposed as an overspill zone for Britain's exploding Black population.

An official of the county's Trading Standards Office, Herbert Sparks, has set up an organisation called "Coloured Community to Cornwall Family Scheme Group."

He has sent letters to local papers in multi-racial areas inviting Coloured families to settle in the county.

One letter published in Milton Keynes declared:

'CULTURAL ENRICHMENT'

"Cornwall has much to offer all ages. There are excellent housing estates in coastal and rural areas. All over the county large and small firms are trying to build up the economy.

"We want to let Coloured families know that there is a different part of the country in which they can live and work – bringing with them their own culture for the people of Cornwall to share."

We wonder if the good people of Cornwall – and the holiday-makers and retired folk on whom their economy depends – are anxious to experience muggings, rapes, race riots, drug-dealing, all-week 'blues' parties, Black Power agitators, community relations officers, "positive discrimination", etc.?

HORRORS

These, surely, are the horrors which many White people go to Cornwall to escape from?

Perhaps Mr. Sparks, a man who says he is "deeply involved in local politics" and who unsuccessfully stood as a Labour candidate in the 1979 Bodmin Council elections, thinks that the only way he will get elected is to import thousands of Labour-voting Blacks?

Perhaps he sees himself as the supremo of a burgeoning Race Relations Industry in Cornwall?

Other industries in the county are in recession and the area has a 15 per cent unemployment rate.

The Race Hate Granny Rapist

THIS 15-year-old Black schoolboy played truant to rob elderly White women and subject them to vile and brutal sexual attacks.

Women aged 79 and 81 went into the witness box at the Old Bailey and told of their humiliating ordeals at his hands.

One of the victims went into shock after seeing her attacker wandering around the court building!

Allen had been remanded into Council care instead of custody and was free to walk around with his social worker.

The jury heard how Mark Allen of Deptford, South East London, conned his way into the homes of elderly women by pretending to be from the gas or electricity board.

One victim described what happened:

"I was so silly to let him in. He said he was an electrician. He just pushed me into the bedroom. He frightened me. He got his hands around my neck but did not say a word. I tried to struggle but he was stronger than me. He pushed me onto the bed and started to tear my clothes."

Earlier the prosecution had described the difficulty Police had had in getting young Black volunteers for the identification parade. After a week of searching for candidates, they had to hold the parade with four men instead of eight.

After a four day trial the jury convicted Allen of rape, robbery and buggery. Judge Beaumont ordered Allen to be detained for a mere eight years.

Detective-Inspector George who led the hunt said:

"I find this case just as horrifying as it must appear to the general public."

Battersea: Black seeks Red's seat

ALF DUBS, presently the MP for Battersea South, expected to be adopted "on the nod" as the Labour candidate for the new Battersea constituency drawn up by the Boundary Commission.

Russell Profitt

After all, he's foreign (Czech-born), very Left Wing, a former trade union official, a groveller to the Immigrant community and a fan of bans against the NF.

But in the eyes of some Battersea Labour activists he's got one major shortcoming: **he's not Black!**

They are pushing for the adoption of Russell Profitt, a Lewisham Councillor and Principal Race Relations Adviser to Brent Council.

Alf Dubs

It is hard to say which of the two is the Redder – but it is plain who is the Blacker!

If Profitt is adopted he will almost certainly become Britain's first Black MP as Battersea is inundated with Blacks and is a safe Labour seat.

If Dubs was true to his "positive discrimination" ideals he would step down in favour of Profitt – but he's fighting like grim death to hang on to his meal-ticket.

Michael Salt

The only candidate for Battersea's patriotic White voters at the next election is the National Front's MICHAEL SALT. Unlike Dubs and Profitt, he lives in Battersea and puts White people first.

TORY 'REBELS'—A PITIFUL SPECTACLE

WE ARE sometimes asked by 'patriotic' people who know little of our economic policies: "Why don't you close down the National Front and get your people to infiltrate the Tory Party where they could have an **influence** on events?"

That question can be answered by reference to the recent pitiful performance of Tory 'rebels' in the House of Commons on the question of the Immigrant Fiances amendment to the Nationality Act, and to the question of securing effective British control over American nuclear weapons based in our country.

Both issues are vital not just to the preservation of British national sovereignty, but to the very physical survival of the British people.

Are we to have the right to stem the flood of aliens into our land? Are we to have the right to decide whether or not nuclear weapons based on our soil and which make our nation a prime target for nuclear devastation are only to be used in a war where fundamental **British** interests are at stake?

"Yes" affirmed a group of 'Right Wing' Tory MP's – a couple of months ago. Then the pressures were put on them – pressures of blackmail and bribery. Now the 'rebels' stay silent as their leaders betray British interests – **again.**

Britain doesn't need Tory 'Right Wingers'. It needs Nationalist revolutionaries!

NF News seeks to persuade its readers to feel angry about the evils of multi-racialism and to direct their anger solely at the corrupt politicians who created a racial problem in Britain, and not to the Immigrant people in general. "Racialism" is NOT unlawful – only "racial hatred".

WE MUST SPREAD OWNERSHIP MORE FAIRLY

ANDREW BRONS contributes the 4th article in our NF Manifesto series.

CAPITALISM and Socialism are becoming harder and harder to distinguish from each other.

Private ownership of industry, commerce and agriculture – except for a few – is conspicuously absent under Capitalism.

A sense of proprietorship among the workforce as a whole is certainly not provided by a Socialist system of state enterprise.

We hold that widespread ownership of workshops, factories, farms and shops is necessary to:

- *Ensure the freedom of the individual and individual family from oppression by 'private' employer or state boss.*
- *Give the sense of fulfilment which comes from a link with the product of one's labour.*
- *Provide incentives for work – and quality work.*
- ***Protect national sovereignty from powerful sectional interests.***

Some industries must of necessity be publicly-owned so that they can on a non-commercial basis provide essential economic and social benefits to the nation – for example, a comprehensive and integrated goods and passenger transportation system.

MONOPOLIES

Equally, the high cost of plant and equipment (which do not vary with output) in some industries, make competition wasteful and, because 'private' monopolies would be too powerful, nationalisation is inevitable.

In some other areas of the economy the need for economies of scale makes the costs of small-scale production prohibitive. However, that does not mean that nationalisation or Capitalist monopoly are inevitable.

A steady but easy transfer of ownership can be achieved by the provision of generous tax relief and other incentives to employees to buy shares up to a maximum holding, and the imposition of a severe tax on large holdings of shares by people who are not employees.

Those industries that need to be re-built because they have been destroyed by foreign imports might be operated as worker co-operatives – with initial capital being provided by the state and capital renewal being provided by subscriptions from the workforce, each member having an equal vote.

RETAILING

There are, of course, many areas of the economy in which economies of scale do not operate so steeply, or at all.

Retailing, for example, need not be carried out on such a large unit scale as manufacturing or wholesaling. In such areas, sole proprietorship or partnership are obviously the appropriate forms of ownership.

We would apply a differential turnover tax in the retail trade that would discourage 'chain store' enterprises and encourage the establishment of single retail units and the transfer of retail units from large ownership to small.

Wholesaling, by definition, needs to be carried out on a large scale, but such operations can be conducted by co-operative enterprises which are owned by the retailers which they serve.

FARMING

Farming is often regarded as an activity that needs to be carried out by large units. It is certainly true that the productivity per man-hour on small farms is lower than that on large farms, but the productivity per acre is greater.

The NF has long been committed to the expansion of agriculture in order to achieve a greater degree of self-sufficiency in food production. The development of upland areas and the division of the largest estates into smallholdings can help to achieve that end.

We are not dogmatists who wish to impose a system of ownership that is uniform, without regard to the different needs of different sections of the economy. Neither are we pragmatists who are indifferent to the nature of the economic and social system.

VARIETY

Whilst we desire a variety of forms of production, we are insistent that the distinguishing mark of our system should be widespread private ownership and control of the means of production.

That does not mean that we believe that the economy should be free from government control, as do *laissez-faire* liberals.

We recognise that a socially just economy is not self-regulating. Continual intervention will be necessary to ensure full employment and to safeguard the interests of the Nation as a whole.

HOW ISRAEL MENACES WORLD PEACE

HAVE you ever wondered why many responsible non-Arabs – who are by no means "anti-Jewish" – are coming to see Israel as the number-one threat to world peace?

The following letter, published in *The Guardian* on 16th February, from a non-Zionist Jewess, Marion Woolfson, may clarify matters:

> *In February last year the World Zionist Organisation in Jerusalem published a* ***Strategy for Israel in the 1980's*** *in its* ***Journal for Judaism and Zionism.***
>
> *This states that 'far-reaching opportunities for the first time since 1967' have been created for Israel, which 'will be forced to act, directly or indirectly, in order to regain control over Sinai . . . Breaking Egypt down territorially into distinct geographical regions is the political aim of Israel in the 1980's.'*
>
> *And it continues:*
>
> *'Lebanon's total dissolution into five provinces serves as a precedent for the whole Arab world including Egypt, Syria and Iraq into ethnically or religiously exclusive areas such as in Lebanon is Israel's primary target.'*
>
> *There follows a description of Israel's plans for the destabilisation of the entire Arab world, and the carving-up of each country into several small warring states.*
>
> *Then the journal says Israel also intends 'the liquidation of Jordan under the present regime'; the rejection of the autonomy plan; the expulsion of the Arabs of the West Bank to Jordan; and increased Jewish settlement in what are now exclusively Arab areas because 'the solution to the problem of the indigenous Arabs will come only when they recognise the existence of Israel in security borders to the Jordan river* ***and beyond it . . .***
>
> *'Rapid changes in the world will also bring about a change in the condition of world Jewry to which Israel will become not only a last resort but the only existential option.*

In other words, Israel is bent on stealing more territory from its Arab neighbours by means of subversion and war in anticipation of a flood of Jews to Israel who have outstayed their welcome elsewhere.

Israel has displayed its willingness to perpetrate acts of genocide before in its quest for *lebensraum*. The bandit-state will not be shy of threatening to use them to build the Greater Israeli Reich.

FALKLANDS: OUR TROOPS FACE ISRAELI MISSILES

'GABRIEL' is simply the trade name for Exocet missiles made in Israel

AS BRITISH soldiers and airmen died in the battle for the Falklands last year Israeli 'Merchants of Death' were rushing to supply Argentina with all the military hardware it could pay for.

A large force of British servicemen have to maintain a garrison on the Falklands – at huge expense to the British taxpayer – because the military threat from Argentina is still very real – **thanks to Israeli arms supplies.**

If more British lads are once again called upon to fight off an Argentinian onslaught they will find themselves facing:

- **Gabriel missiles.** These ship-launched sea-skimming guided missiles are simply a version of the deadly French Exocet missile which sank several British ships last year, made in Israel under licence.

Supplies of Gabriels were detected in transit from Tel Aviv via Las Palmas to Peru last May. The Peruvians re-sell the missiles to the Argentinians. Other supplies reached Argentina via Ecuador.

- **Kafir jet fighters** – another Israeli-made version of a French weapon: the Mirage jet fighter.

Spare parts and bombs for Kafirs were detected in transit from Israel at Kennedy Airport, New York, onward bound to Ecuador.

Israeli arms dealers have been trying to set up flights direct from Tel Aviv to South America.

Last year a Houston based shipping firm attempted to contract Overseas National Airways of New York to fly 80,000 pounds of "cargo" from Israel to Uruguay.

So much for those Anglo-Israel "friendship" associations!

Jews 'bogus' man dies

THE man who proved that the majority of people in the world today who call themselves "Jews" are not descendants of the Jews of the Old Testament, committed suicide in March.

Arthur Koestler, himself a "Jew", proved in a scholarly book *The Thirteenth Tribe* that the majority of "Jews" are descendants of Turco-Armenoid tribesmen called Khazars.

Arthur Koestler

The Khazar kingdom, situated at the borders of southern Russia and Turkey, converted to Judaism to avoid being absorbed by their Christian and Muslim neighbours.

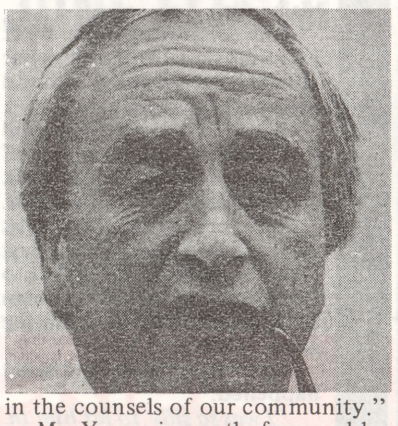
Koestler demonstrated that these Khazar "Jews" were the ancestors of the Ashkenazi or Eastern European Jewish community – which now constitutes 80 per cent of the world's – **and Israel's** – "Jewish" population.

He thus showed that the "ancestral right" claim of most "Jews" to the land of Palestine is bogus.

The Thirteenth Tribe was the only one of his many books not mentioned in media obituaries.

M.S.C. SUPREMO SUPPORTS CRANK JEWISH SECT

MANPOWER Services Commission Chairman David Young (*right*) is the man charged by Norman Tebbit to "bring hope" to Britain's huge army of jobless.



Amazingly, Mr. Young is closely involved with a sinister Jewish sect called the Lubavitch Foundation.

According to the *Jewish Tribune* of 11th February Mr. Young hosted the 23rd annual dinner of the 'Friends of Lubavitch Foundation' held at Stamford Hill, North London. The 250 guests pledged £138,000 to the Foundation.

The Lubavitch Foundation has a world-wide following among ultra-orthodox Zionist Jews.

The sect teaches that unlike Jews, Gentiles do not have a soul from God, but only an "animal soul" which is "totally evil", and that "no act performed by a Gentile however apparently virtuous can ever be really good."

The Foundation's anti-Gentile beliefs are so extreme that it was denounced as being comparable to Nazi-ism by Rabbi Norman Solomon of Hampstead United Synagogue. He declared:

"Unless they repudiate this pernicious racism, they have no place in the counsels of our community."

Mr. Young is greatly favoured by the money-worshipping Tory leaders.

Before working for Tebbit (referred to by *his* local Jewish community as "our Norman") he was industrial adviser to Sir Keith Joseph.

Previous to that he was personal assistant to Zionist multi-millionaire Sir Isaac Wolfson.

He became a millionaire himself by setting up and then selling off his own construction and property company.

Mr. Young was once a director of the Tory-reactionary Centre for Policy Studies.

'Kosher Nostra' boss dies

BOSS of the American-based international crime syndicate, Meyer Lanski, died earlier this year aged 81. He was the most successful criminal of modern times.

Jewish Hollywood film producers still like to portray 'The Syndicate' as the Mafia or the 'Causa Nostra' – an Italian/Sicilian criminal secret society.

While Italian Americans are still involved, the "Moustache Petes" similar to the figure portrayed by Marlon Brando in *The Godfather* were eclipsed decades ago by more sophisticated Jewish criminals – the Prince of whom was Meyer Lanski.

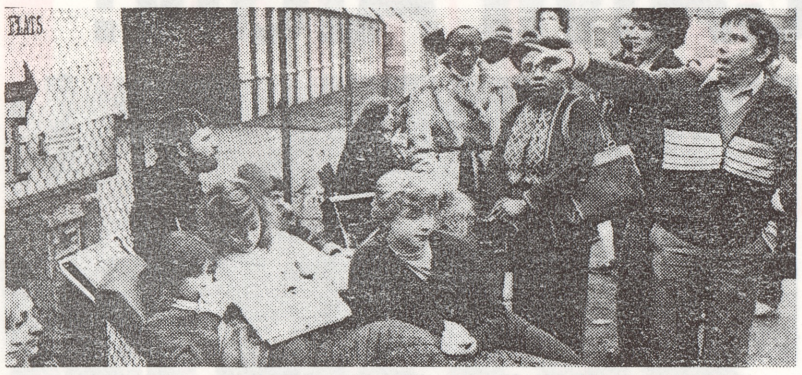
Lanski was The Syndicate's banker. He achieved a multi-billion turnover from drugs, prostitution, 'skimming' the income of casinos, loan-sharking and legitimate 'front' businesses.

Meyer Lanski

When the US authorities tried to deal with him on a tax evasion 'rap' he fled to Israel. The Israeli Government only extradited him after extracting a secret promise from the US government that he would not be jailed.

Lanski's personal banker was Rabbi Dr. Tibor Rosenbaum of Geneva who was also banker to the international swindler Barnie Cornfeld and the Israeli Corporation, among others.

HOUSING:
BLACKS PUT FIRST



Camping out on a GLC housing queue – now futile effort for Whites

IF YOU are White and live in Nottingham and are hoping to get a council house you may soon have to get past Mr. David William Mullins.

He has recently applied for a job with Nottingham City Council to carry out the "ethnic monitoring" of all council house applications.

His job application forms have fallen into our hands. Educated at Oxford and the LSE he became a polytechnic lecturer before joining Hackney Council as a Race Relations Adviser in their housing department.

In this post he was instrumental in introducing a system of "positive action to ensure the elimination of racial discrimination in the housing allocation process" and also a system of monitoring "racial harassment" on housing estates.

In this latter campaign he managed to have included a new clause in the tenancy agreement which states:

Tenants must not do or permit to be done any act calculated to interfere with the peace or comfort of neighbours or with their property by treating any neighbour less favourably than another person on the grounds of colour, race, ethnicity, nationality or national origin."

Should any tenant not comply with this directive to be as friendly to their neighbouring Blacks as to their White neighbours, then they will render themselves liable to eviction!

Mr. Mullins now intends to take these ideas to Nottingham. In his letter of application he says:

"I recognise fully the need for urgent and positive action at all levels in our society to attack institutional racism and begin to build a more racially just community."

Nottingham is not alone in their determination to put Blacks first on the housing queue.

According to a confidential Wolverhampton Council housing document, "special efforts" are to be made to provide houses for West Indian and Asian youths.

The Chief Housing Officer recommended the employment of a special worker "with a knowledge of West Indian culture and customs" because he recognises their "especial difficulties."

It is not just Wolverhampton and Nottingham, all across Britain the message is clear: Blacks are being put first in jobs and housing.

'Positive Discrimination'

THE Race Riots and the spreading racial conflict which have beset our country over the last few years have sent panic signals hurtling through Britain's political and administrative Establishment.

A whole generation of politicians, sociologists and civil servants have spent their lives committed to the political dogma of multi-racialism and to accept failure in this would be to accept the failure of their whole philosophy.

Consequently these pillars of the Establishment are absolutely desperate to turn Britain into a multi-racial society and they realised that the sight of Black mobs rampaging through Britain's cities could be the death knell of multi-racialism and of their power structure.

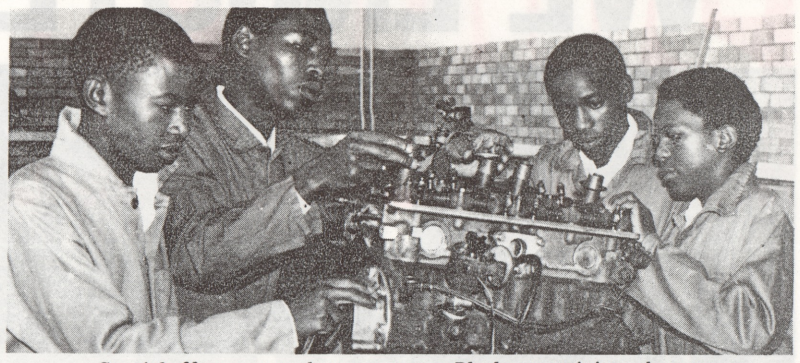
'DANEGELD'

To prevent race riots recurring these politicians are prepared to grant to the Blacks their every wish and to ignore the hopes and rights of the as yet passive White British people.

Thus was born the concept of "positive discrimination". Jobs, housing, welfare – all must be given to the Blacks. Like all 'Danegeld' payments, the demands will ever increase.

That is the future for Britain until the multi-racial society is ended and the Blacks go back home.

EMPLOYMENT:
BLACKS PUT FIRST



Special efforts are made to get young Blacks on training schemes

WHEN school leaver Darrin Hiscock applied for the job of gardener with Hackney Council they wouldn't even give him an application form because he was White and the job was for Blacks only.

Isn't this breaking the Race Relations Act? Not at all says Hackney Council, and the Commission for Racial Equality agree.

Hackney Council have managed to circumvent the law on a technicality by offering the jobs as "trainee jobs."

According to the Race Relations Act it is only an offence for anyone to discriminate in recruiting for *permanent* jobs.

The pay for these "temporary jobs" is between £4,014 and £8,080.

But when it comes to putting Blacks first you have to go a long way to beat Ken Livingstone's Greater London Council.

They have now set up an Ethnic Minorities Committee with a budget of £3,000,000 which will be used to set up a paid army of Race Relations Gestapo.

Already they have started to advertise these jobs. An "Anti-Racist Project Co-ordinator" (on a salary of £13,809-£15,021) is wanted to help prepare London for being an "Anti-Racist Zone in 1984" (*sic*).

Five "Liaison and Outreach Workers" on the same salaries are wanted to secure adequate consideration for the "special needs" of various ethnic groups.

This monstrous set-up has provoked angry reactions from some other members of the GLC staff. In the official journal of the Council's administrative technical and clerical staff, the editorial written by GLC housing officer Len Hudson stated:

"It really is difficult to imagine a surer way to embitter the relations between racial groups than to consistently take the view that the minority is right; that it must be given preferential treatment in every possible way; that crime is no longer a crime if Coloured folk commit it."

He also reveals that it is now general policy amongst most local authorities for "minority groups to get a disproportionate share of better quality local authority housing."

In other words all across Britain it is now the official policy for Blacks to be put first in jobs and housing.

RICH ASIANS REWARD TORIES FOR SELL-OUT

"THREATS and bribery" was how Tory MP Harvey Proctor described the methods used by his party to persuade those MP's who rebelled over the new Nationality Act to toe the party line.

"The modern techniques of the parliamentary thumb screw are many and varied," Mr. Proctor said. "A whisky here, a trip to the Far East there, the friendly chat, the unfriendly chat, appeals to party loyalty – these are the stock in trade of the politicians."

It was under such pressure that the original 53 Tory rebels dwindled to a meagre 15 as the Conservative Bill to allow more Immigrants, almost all Asian, into this country was approved by Parliament.

Tory Party chiefs were well pleased with the result as it avoided the embarrassment of offending one of their party's main financial backers: **a group of 30 Asian millionaires.**

The millionaires have formed the exclusive Durbar Club whose membership fee is £1,000 a year.

The aims of the club according to its Chairman, one Narender Saroop, are:

"To raise funds for the Conservative Party and provide regular communication between the financial and economic leaders of the Asian community and the top echelons of the business, political and social structures in Britain, particularly with the top-tier leadership of the Conservative Party."

Harvey Proctor

Narender Saroop

Bonds between Asian businessmen, the Tory Party and the City have been strong ever since 1970.

Numerous London companies helped the Asians get their money out of pre-Amin Uganda by issuing invoices for goods not supplied. It was this corruption that caused Amin to expel the Asians in 1972.

These super-rich Asians back the Tory Party with their hundreds of millions of pounds because they know that the Tory victory at the next General Election could depend on them and their community.

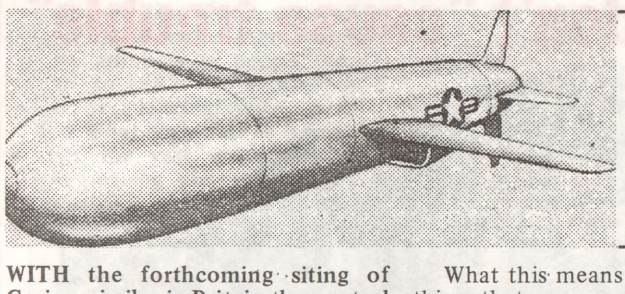
As the Commission for Racial Equality pointed out recently: "The outcome in as many as 80 constituencies depends on the ethnic vote!"

So much for Mrs. Thatcher and her concern for "people's fears of being swamped"!

Mr. Proctor commented on his 'Tory Rebel' colleagues:

"They have sacrificed principle, people and patriotism for party ambition."

TORY BRITAIN A U.S. 'AIRCRAFT CARRIER'



CRUISE MISSILE – in Britain, but no British control over its use

WITH the forthcoming siting of Cruise missiles in Britain the control of Britain's nuclear defences passes out of the hands of Britain and into the hands of the Reagan Administration.

This was admitted by Mr. Heseltine, Defence Secretary on an ITV "Weekend World" programme on Sunday 13th February. In an effort to hide this appalling fact from the British people he said:

Heseltine

"The agreement is absolutely clear, if there is a disagreement there is no decision to use the bases and therefore the bases would not be used."

What this means is that the only thing that can prevent Cruise missiles once they have been deployed from being launched by Reagan is an alleged agreement between Thatcher and Reagan.

If Reagan breaks the agreement there is nothing Britain can do. We would simply stand by watching helplessly, waving the agreement – a scrap of paper – while Reagan turns Britain into a nuclear battleground.

Yet the purchase of Cruise missiles still leaves Britain potentially defenceless.

£5 BILLION

While the Americans can fire the missiles without our agreement, Britain has been persuaded not to buy the equipment which would enable us both to prevent America launching the missiles and allow us to fire them of our own accord.

Thus £5 billion has been spent to provide America with a nuclear armed aircraft carrier.

In the event of a nuclear war America (and probably Russia) would attempt to limit the theatre of war to save themselves – by using Europe as the battleground.

The only way to prevent this is an 'independent nuclear deterrent built and controlled by Britain.

SYNOD FLOUTED AS SIKHS GET CHURCH

"THIS is only the beginning!" This was the reaction of a spokesman of the Sikh community in Britain on learning the news that they were to be allowed to buy the "redundant" St. Luke's Church in Southampton for £80,000.

The decision by the Church of England Church Commissioners to sell St. Luke's came less than a week after the Synod of the Church of England (the Church's 'Parliament') had voted that the sale of churches to alien heathen sects was to be forbidden.

This total disregard for the democratic vote of the Synod by the Church Commissioners is expected to lead to a constitutional showdown within the Church of England.

The Synod upheld the view of traditional Christians: "If Christians let a church where they have worshipped be used by a rival and hostile faith, they appear to be denying their belief that Christ is the sole way to God."

The Church Commissioners overruled their decision for "the fear of offending the Sikh Community."

DOUBLE BLOW

The sale came as a double blow to the White Christian people of Southampton. Only last month Southampton Council gave £123,000 of ratepayers' money towards the town's new £250,000 Hindu Temple!

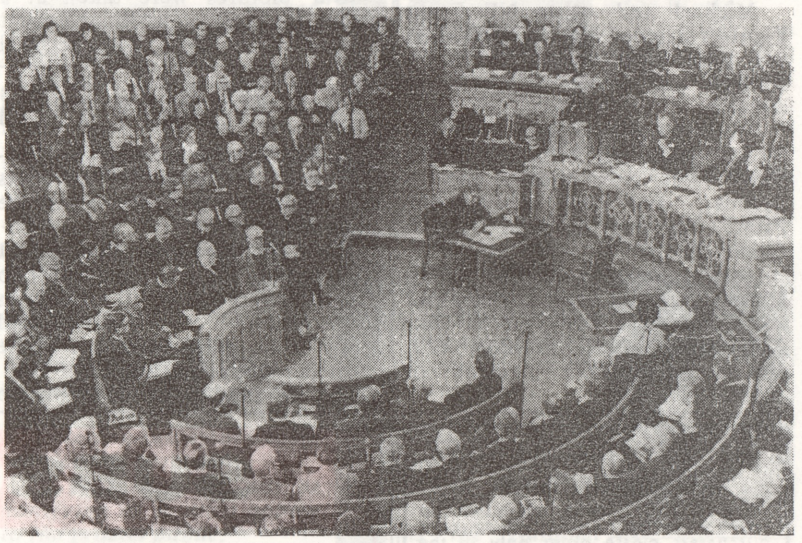
Local White residents had been hoping that St. Luke's would be bought by the Council and turned into a community centre providing both an old folks' day centre and a youth club.

Along with the news of the sale of a sacred place of Christian worship came a report that Newham Council were examining the idea put forward by the Newham Monitoring Project that all children in Newham Schools should be taught languages like Punjabi, Gujaradi, Hindi and Urdu.

This is proof that our British heritage and culture is under attack.

The very fabric of our British way of life is threatened by Coloured Immigrants and their treacherous friends in high places.

These Sikhs will soon be banging drums and wailing where Christian people prayed



The proceedings of Synod were portrayed by the media as "democracy at work." What a joke! The Synod was a charade – just like Tory and Labour party conferences!

BERMONDSEY: A freak Labour candidate provoked a freak result—but...

WE ENJOYED THE CAMPAIGN!

JIM SNEATH – a fine candidate

POLICE riot-control vehicles were parked opposite the NF campaign HQ. A helicopter hovered overhead!

MARTIN WEBSTER "rabble-roused" according to one SB officer

A CAPACITY AUDIENCE listened intently as NF leaders explained policy

(Left): ANDREW BRONS, NF Chairman, concluded the Saturday rally with a witty and rousing address. (Right): TUESDAY'S rally was also full to capacity.

BERMONDSEY's by-election on 24th February produced freak results for all the parties that stand regularly for the constituency because the Labour Party put up a freak candidate – Peter Tatchell – and the media were out to get him.

The election saw a remarkable demonstration of voter-manipulation by the media. The attacks on Tatchell were only a part of the story.

Much more subversive of the democratic process were the production of clearly rigged "public opinion" polls.

At the start of the campaign these showed John O'Grady – the 'Real Labour' puppet candidate for Bob Mellish, the renegade former Labour MP for the constituency – close behind Tatchell.

RIGGED POLL

On the weekend before Polling Day a "poll" came out showing the Liberal candidate Simon Hughes coming from nowhere to run "neck and neck" with Tatchell.

It also showed O'Grady and Tory Robert Hughes trailing miles behind, and "Others" – i.e. mainly Jim Sneath, the NF candidate – at a totally incredible **"14 per cent"!**

STAMPEDE VICTIMS

This had the predictable effect of persuading voters who did not at that time intend voting either Labour or Liberal – especially "Others"/NF voters – to stampede to vote Liberal *to make sure that Tatchell was not elected.*

As a result O'Grady came nowhere, the Tory vote dropped by 80 per cent, and the NF vote dropped by 60 per cent to 426.

The other 11 candidates, including several from 'Nationalist' groups out to split the NF's vote, only got double figures.

The NF's Jim Sneath was an excellent candidate and he fought a fine campaign. He will fight again at the General Election (Tatchell is unlikely to) and the NF vote will undoubtedly recover.

Jim and all his campaign workers thoroughly enjoyed the campaign.

PACKED MEETINGS

Thanks to the NF's High Court win over Southwark Council during the Peckham by-election last October, packed election meetings were held on Saturday 19th and Tuesday 22nd February.

These, plus Jim's adoption meeting and the rallies raised well over £1,000 and more than 400 copies of *NF News* were sold by canvassers.

MARCH BAN

Jim wanted to hold a pre-rally march through the predominantly White constituency on 19th February, but the Police banned it for no good public order reason.

NICKED!

Help Our Front Fighters!

HIS name is Michael Connolly. He is 22. He is one of many patriotic Britons of Irish extraction who belong to the National Front and who loathe the IRA and their Communist backers.

Michael joined an NF demonstration against a pro-IRA meeting organised by the Trotskyite Troops Out Movement in Holloway, North London, on 11th December 1982.

A gang of thugs belonging to Red Action (formerly "The Squad" of the Socialist Workers Party) swaggered towards the traitors' meeting giving Communist clenched-fist salutes.

Michael and other NF Front Fighters steamed into the Red scum and gave them a good thrashing. Michael and several others were arrested.

Their patriotism was rewarded by suspended jail sentences and/or heavy fines. Now Michael and his friends – and many other young Front Fighters – need YOUR financial help.

Send a donation TODAY to the Militant Patriots Legal Defence and Aid Fund (MPLDAF), c/o PO Box 228, Manor Park, London E12. Make cheques/PO's payable to "MPLDAF".

NF Club Members have fun

"NF = NO FUN" used to be one of the slogans of the Anti-Nazi League (ANAL). ANAL has now disappeared up its own back passage – but the NF marches on, and its members have lots of fun!

Apart from regular socials, discos and trips to the coast, the NF also has a Dining Club where members have a good meal, hear an interesting speaker and drink and talk the night away.

Our pictures were taken at a recent function at which the guest speaker (*top left*) was Michael Walker, Editor of *National Democrat*, an independent Nationalist magazine.

Don't be alone – JOIN THE NF!

Hearts & Papers

GRANT ALEXANDER (centre) leads NF activists in selling NF papers at the Hearts ground. He was arrested there on 8th January for "behaviour likely to cause a breach of the peace" – i.e. selling *Bulldog*! More news next issue.

GET READY FOR JUNE ELECTION

A JUNE date for the General Election seems likely and NF members and supporters are asked to prepare for it *now*.

The NF Elections Department reports that the party seems set to nominate more than 50 candidates if the election comes in June – and many more if it does not come until October or next Spring.

No NF candidates will be put up without the support of a personalised election address to every household plus supplementary leaflets and posters.

It is essential that members get to work NOW addressing the labels for the election addresses. An *NF Members Bulletin* is being issued giving full details.

GET TO WORK!
